1,2,3 – Multilevel Shops
4-15 – Small Individual Shops
(Ground Floor + 3 Floors)
- **1 BUILDING - P**
(Ground floor & Terrace level Parking)

Typical Wing of Multi-Level Shop

The complex is perfectly built for shopping enthusiasts. The building has all kinds of varieties in retail shops which will give you the next-level shopping experience. The elevation is solely curated for presenting you with a perfect landmark of the city. It is the typical wing of Multi-level shops to upgrade you frequently with the running trends. Also, each floor has a wide space for the customers to roam and enjoy shopping freely with spacious offices and showroom spaces. Commercial Building at Shriram Business Park will leave you with an unending shopping experience.

Clear Avenues For Better Directions

30 m road leads to the open courts of commercial group circumscribed by the shop wings, where lavish landscaping generates a sense of entrance. These courts divide and make finding one's way through shopping blocks easy and convenient.

DYNAMIC FACADE

Flexible modules of facade allows buyer to select the elevation scheme among the provided options suitable for the shop and need of the product which is designed considering need of advertisement and expected variations in users choices. Selection of the various facade schemes by the owners will eventually lead to elevation of the building which will be different from the adjacent building blocks.

BRILLIANT BUILDING BLOCK DESIGN WITH EXPANSION FLEXIBILITY

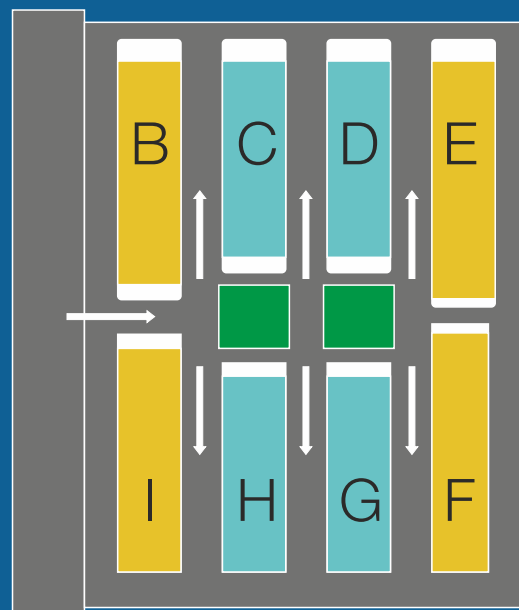

Building Block Design

The individual building block is designed in an unique way to let you explore various floors easily. Providing frontage to each shop buyer and convenient visual accessibility to the customer which will exponentially affect the business.

This grid plan also provides the flexibility to reach floors through a vertical internal connection and also externally.

A revolutionary step in commercial infrastructure module through introducing multi storey building anchors you full wisdom to manage and reach different sections according to your convinience. Every shop at the respective floors now will be easily accessible through an external staircase. Central core is provided with all basic amenities(toilets, drinking water) which is accessible on each floors.

Multistorey anchors also allow owner to rentout individual floorwise shop area.

GRID PLANNING

Site is planned in grid iron pattern with courts and open spaces for easy way finding and regulation through site. It also helps to facilitate on-site parking services, landscaping islands and to execute transportation network for better goods movement.

EXPANSION FEASIBILITY

Opt 1. Single shop is available for the purpose of giving good space for the showrooms and offices.

Opt 2. Side to side expansion combining two adjacent shops leads to bigger store front.

Opt 3. Side and back expansion of shops make it a spacious showroom and also gives benefits of both option 1 and 2 along with both side entrance facility.

Opt 4. Expansion combining two back to back shops to give bigger depth along with both road side entrance.

TYPICAL SHOP SECTION

TYPE 1 :
SINGLE SHOPS EITHER
EAST OR WEST FACING ENTRY
FRONTAGE = 19'0"

GROUND FLOOR MEZZANINE FLOOR FIRST FLOOR SECOND FLOOR

TYPE 2 :
2 SHOPS COMBINED SIDE BY SIDE
EAST OR WEST FACING ENTRY,
FRONTAGE = 38'10"

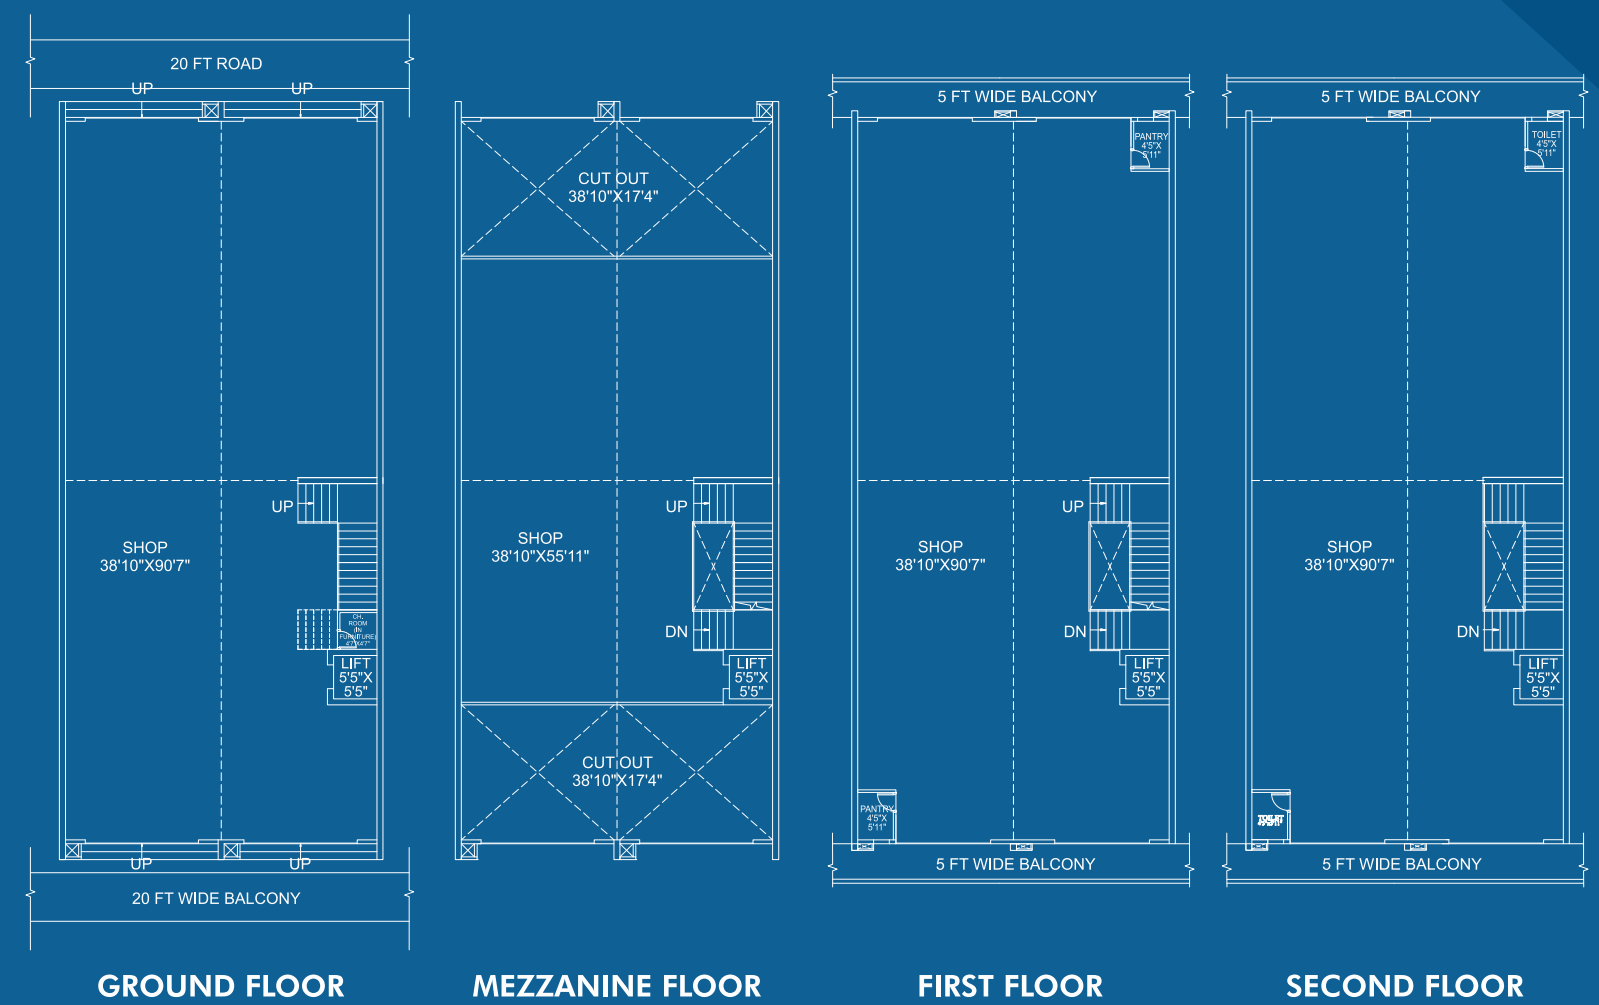

GROUND FLOOR MEZZANINE FLOOR FIRST FLOOR SECOND FLOOR

TYPE 3 :
TWO SHOPS COMBINE
EAST AND WEST FACING ENTRY,
FRONTAGE = 19'0"

TYPE 4 :
4 SHOPS COMBINED
EAST AND WEST FACING ENTRY
FRONTAGE = 38'10"

Plaza A Spectacular Space That Pulls The Crowd

Plaza is a beautifully designed open space with incredible scope for container restaurants and haat handicrafts. Amphitheatre and event space are also part of the design, thereby giving this area an extra dynamic and charm. Needless to say, these crowd-pulling attractions make this space one of Shriram Business Park's most specials.

3 Types of Parking Facilities

ON ROAD PARKING

Roads in front of the shops are facilitated with car and bike parking facilities to grant customers the 'Park & Shop' experience. This also facilitates easy transportation of goods.

STANDALONE PARKING BUILDING

Shriram business park allows you to park your vehicle with the utmost security, and standalone parking building designed specially for the exclusive crowd to reduce the on-road parking conjunction. Planters are provided on each floor to add greenery to the internal spaces.

OPEN PARKING SPACES

Along with on-road and standalone parkings, different parking spaces are provided at various places to divide the traffic.

FIRE FIGHTING SYSTEM

Fire tender movement and necessary fire equipments are provided

SOLAR POWER

Solar photovoltaic system, which is expected to save up to 31.90% of energy in construction. LED lights in common areas, VFD for lifts, highly efficient pumps, and common solar lighting to further save up to 28.56% of energy.

SEWAGE TREATMENT PLANT

500 KLD sewage treatment plan, developed with an adequate network of drainage lines. Tertiary waste water treatment; the recycled water is used for gardening and flushing

SMART AND SECURED FEATURES (ELV)

- Provision for BMS (Fire, Safety, Security and Common Services Automation) of the campus.
- CCTV for the premises.
- Provision for Satellite TV/Dish Farm/DTH through structured cabling.
- Provision for Telephony Systems.
- Provision for Wi-Fi Infrastructure and LAN Infrastructure.
- Provision for Data Center/Central Control Room Development.
- Provision for Visitor Management and Parking Management System.

SOLID WASTE MANAGEMENT

- Solid waste management system with segregation of biodegradable and non-recyclable/non-biodegradable waste.
- Non-recyclable/non-biodegradable waste is stored and collected separately. All biodegradable waste is treated in an organic waste converter to produce good compost for landscaping.
- Non-biodegradable waste is handed over to the concerned governing body for further disposal.

AMPHITHEATRE

An open-air amphitheatre for the customers to relax.

FEATURES

RAIN WATER HARVESTING

Stormwater drainage network to harvest rainwater for the augmentation of groundwater level. Rainwater harvesting plant has filtration potential of 70% of the collection quantity.

NETWORK OF ROADS AND BRIDGES

- A network of wide concrete roads with sidewalks (footpaths).
- Pedestrian paths connect the entire layout. Bridge has been built on the stream (nala) flowing through the layout.

- Entrance gate with grand opening
- Boom barrier gate at main entrance
- Cement road and paving blocks on footpaths
- Ample open and covered parking spaces
- High bright focused light/street light in complete premises
- Provision of wi-fi, broadband connectivity
- Provision of cable and set up box connection
- CCTV at designated areas
- Fire fighting system
- Water supply control and optimization
- Landscape elements to create micro-climate at neighbourhood levels
- Event plaza and chaat corner
- Amphitheatre
- Food court
- Skating arenas
- Kids play area
- Walkways
- Street furniture
- Senior citizen corner
- Garden furniture
- Gazebo

Advantages of Having Shop in A COMMERCIAL HUB

- In commercial plotting, we have to provide parking space in our plot that reduces the ground floor shop area; whereas in commercial hub, the systematically designed parking areas help the shop owner to explore the shop area as well as provide the frontage.
- In commercial hub, the customer can park in the parking zone and visit various shops, thus enhancing the shopping experience.
- Systematically planned recreational spaces, like amphitheatre, event plaza, restaurant, café, garden areas, etc., engage the crowd and re-energize them to continue shopping.
- Places like event plaza and amphitheatre provide the advantage to the shop owners to exhibit their merchandise/goods.
- Having shop in a commercial hub itself increases the probability of customer flow.
- Individual expenses get reduced due to the amenities & safety measures provided in common, which is rare in individual shopping areas.
- Synchronized planning of services increases efficiency and help in individual (shop owner's) cost-cutting.

The most Promising location

Shriram Business Park is situated along the fastest growing Vidhan Sabha road of Raipur. It is the first and one of its kind set up in the vicinity and is hence bound to attract a diverse crowd of consumers and traders.

This promising premise and the potential of the project itself make it the business hotspot we all have been waiting for.
